

## WITH ARAGON TECHNOLOGY

ADVANTAGES OVER FILTERS WITHOUT ARAGON CARTRIDGE:

- Contaminants are permanently trapped thanks to the funnel-shaped pores
- Protection against microbial growth thanks to silver in the composition
- Timely reminder of replacement by drastically reducing the pressure head

### SMART MULTI-PURPOSE

FOR SOFT WATER

- 1 CARBON Ag SMART**  
Reduces turbidity and colour, removes heavy metals
- 2 ARAGON SMART**  
Purifies by 3 methods – mechanical, ion exchange and sorption
- 3 POSTCARBON Ag SMART**  
Retains chlorine and organics, eliminates tastes and odours

### SMART HARD WATER FILTERS

HARD WATER FILTERS

- 1 SOFTENING SMART**  
Eliminates hardness hardness salts – the cause of limescale formation
- 2 ARAGON SMART**  
Purifies by 3 methods – mechanical, ion exchange and sorption
- 3 POSTCARBON Ag SMART**  
Retains chlorine and organics, eliminates tastes and odours

## WITH ARAGON BIO TECHNOLOGY

ADVANTAGES OVER ARAGON TECHNOLOGY:

- You can drink water without boiling thanks to 100% protection against viruses and bacteria
- 6 times longer scale-free with MAX continuous softening technology
- Better calcium absorption due to recrystallisation of calcite into aragonite

### SMART BIO

FOR SOFT WATER

- 1 COMBI SMART**  
Removes dissolved impurities, including iron
- 2 ARAGON SMART BIO**  
Provides comprehensive cleaning, eliminating viruses
- 3 BASKON SMART**  
Fills water with minerals, eliminates tastes and odours

### SMART MAX BIO

HARD WATER FILTERS

- 1 AQUASOFT SMART**  
Reduces excessive levels of hardness salts
- 2 ARAGON SMART MAX BIO**  
Corrects hardness and cleans comprehensively, also from viruses
- 3 POSTCARBON Ag SMART**  
Retains chlorine and organics, eliminates tastes and odours

## REVERSE OSMOSIS SYSTEMS

- Only 3 cartridges to replace instead of 6 (as in classic systems)
- All pollutants are purified at the molecular level

### PRESTIGE SMART

FOR WATER WITH HIGH BORON CONTENT

- 1 COMBI SMART**  
Pre-purification of chlorine, organics, iron and other contaminants
- 2 MEMBRANE SMART**  
Ultra-fine water purification at the molecular level
- 3 BASKON SMART**  
Fills water with minerals, eliminates tastes and odours

### PRESTIGE SMART ANTIBORON

FOR WATER WITH HIGH BORON CONTENT

- 1 COMBI SMART**  
Pre-purification of chlorine, organics, iron and other contaminants
- 2 MEMBRANE SMART**  
Ultra-fine water purification at the molecular level
- 3 ANTIBORON SMART**  
Reduces boron concentration, eliminates tastes and odours

## USED TECHNOLOGIES

### ARAGON

UNIVERSAL FILTER MATERIAL. CLEANING BY MECHANICAL, ION EXCHANGE AND SORPTION METHODS SIMULTANEOUSLY

### BIO

100% VIRUS PROTECTION WITHOUT MEMBRANE TECHNOLOGY, BIOCIDAL ADDITIVES AND UV RADIATION

### MAX

6 TIMES LONGER LIMESCALE PROTECTION THAN OTHER HARD WATER FILTERS

### BASKON

BALANCED MINERAL COMPOSITION AFTER REVERSE OSMOSIS TREATMENT AND IN SOFT WATER REGIONS

RESOURCE AND PERFORMANCE DEPEND ON THE QUALITY OF THE SOURCE WATER  
RECOMMENDED CARTRIDGES REPLACEMENT PERIOD – AT LEAST ONCE A YEAR  
WARRANTY PERIOD – 2 YEARS  
FILTER SERVICE LIFE – 5 YEARS

## CONVENIENT

QUICK-RELEASE CARTRIDGES FOR EASY KEYLESS REPLACEMENT

### QUICKLOCK

CARTRIDGE REPLACEMENT IN 3 SECONDS WITH ONE HAND

## SAFE

CARTRIDGE REPLACEMENT WITHOUT CONTACT WITH ABSORBED CONTAMINANTS

## COMPACT

COMPARED TO CLASSIC SYSTEMS, THE FILTERS TAKE UP LESS SPACE UNDER THE SINK
